## Smart Eye - Personal

SaHarsh Solutions brings you portable GPS Tracking System. It helps Jewelers or business person to track their valuables in the bag. It provides peace of mind to parents for their child in today's unsafe environment. It becomes a great companion for aged people at the time of emergency. It is also useful for women to get out of danger of being raped, abuse or such situations by giving alert to near dear.

### Features:

- **Real time tracking** of target by web based platform, Android App and SMS.
- **Long battery backup:** Once tracker is fully charged, it will work for more than 40 hrs in full performance mode.
- In panic situation, user can press SOS button which alerts all registered mobile numbers with Call and SMS.
- **Secret Listening** facility is available. Registered mobile user can listen to voice of target secretly. If registered mobile number sends SMS to the device then device will call secretly so that he can listen to the voice of happenings around the device.
- **Geo-fence:** Geo Geo-Fence is a virtual area or boundary of certain territory. User can define certain area on Map. If target goes in or out of that area then it will alert with SMS.
- Sends low battery alert if battery gets low.
- Travel history for more than 2 months with route map.
